

CLAIMS

- Sub A2*
1. A film for forming a vapor deposited balloon,  
which comprises a five-layer structure composed of a  
polyamide resin layer, a polyolefin layer, a polyamide  
resin layer, an adhesive resin layer and a seal layer.
2. The film for forming a vapor deposited  
balloon according to claim 1 wherein the polyamide resin  
layer is a mixed resin layer comprising 5 to 30 wt.% of an  
amorphous polyamide resin and 95 to 70 wt.% of an  
aliphatic polyamide resin and/or a semiaromatic polyamide  
resin.
- 10 3. A film for forming a vapor deposited balloon,  
which is produced by forming a metal deposited layer over  
the whole or partial surface of the outermost polyamide  
resin layer of the film according to claim 1.
- 15 4. A film for forming a vapor deposited balloon,  
which has a transparent appearance on one side and  
comprises a metal deposited layer formed on the other-side.
- 20 5. A balloon comprising the film for forming a  
vapor deposited balloon according to claim 1.
6. A method for producing a vapor deposited  
balloon, which comprises heat sealing portions of the seal  
layer(s) of vapor deposited balloon film(s) of claim 1  
together to form into a desired shape such as sphere,  
25 ellipse or the like in a desired size.
